WE'RE JUST GETTING STARTED.

2009 ANNUAL REPORT

keep a child alive

There is a profound difference between living and life.

Living may extend time for another day.

But life is far more than sleeping and waking.

Life is more than merely existing.

And, although it would be easier, life cannot be bought in a pill.

That is why Keep A Child Alive buys more than just the pills needed to fight AIDS/HIV in Africa and India.

It buys the essential nutrition, shelter, support and education to help ensure those pills are taken properly and effectively.

It buys the things we all take for granted, but that make all the difference. A bed. A roof. A ride. A book. A smile.

KCA offers children, their families and entire communities a shoulder to lean on and a heart that beats for them.

Because KCA believes we can do something far bigger and better than buy the ability to live.

We can buy the dignity that is life.

We can buy compassion.

Buy love.

Buy the cure.

Buy life.

Because the more you buy, the more you save.

KEEP A CHILD ALIVE.

ALICIA KEYS AND LEIGH BLAKE
CO-FOUNDERS, KEEP A CHILD ALIVE

WE CURRENTLY PROVIDE FUNDING TO 10 CLINICAL AND ORPHAN CARE SITES IN AFRICA AND INDIA.

With KCA funding, these projects have been successfully scaled to new levels of service and self-sustainability within their communities.

Keep a Child Alive has expanded its work into India where it now supports 3 sites: 2 orphan care centers in Rajasthan and a safe house for HIV+ men and women and their children.

In past years, KCA has funded additional projects in Ethiopia, India, Kenya, Mali, Zimbabwe and South Africa.

OUR FOCUS:

TREATMENT

Anti-retroviral therapy (ART) has transformed the lives of people with AIDS in the West, returning them from sickness to health. Globally, 5 million people are on ART but there are 9.8 million people still desperately in need of treatment. When children are infected, 50% die before the age of 2 and 80% die before the age of 5. When a member of the public signs up to become a monthly donor, 100% of their monthly donation goes directly to life-saving AIDS drugs and surrounding care.

CARE

Keep a Child Alive provides first class AIDS care through doctors, nutrition, testing, transportation, and treatment for opportunistic infections, which are all necessary for anti-retroviral treatment to be successful. KCA also provides the care and support to keep orphaned children safe.

ORPHANS

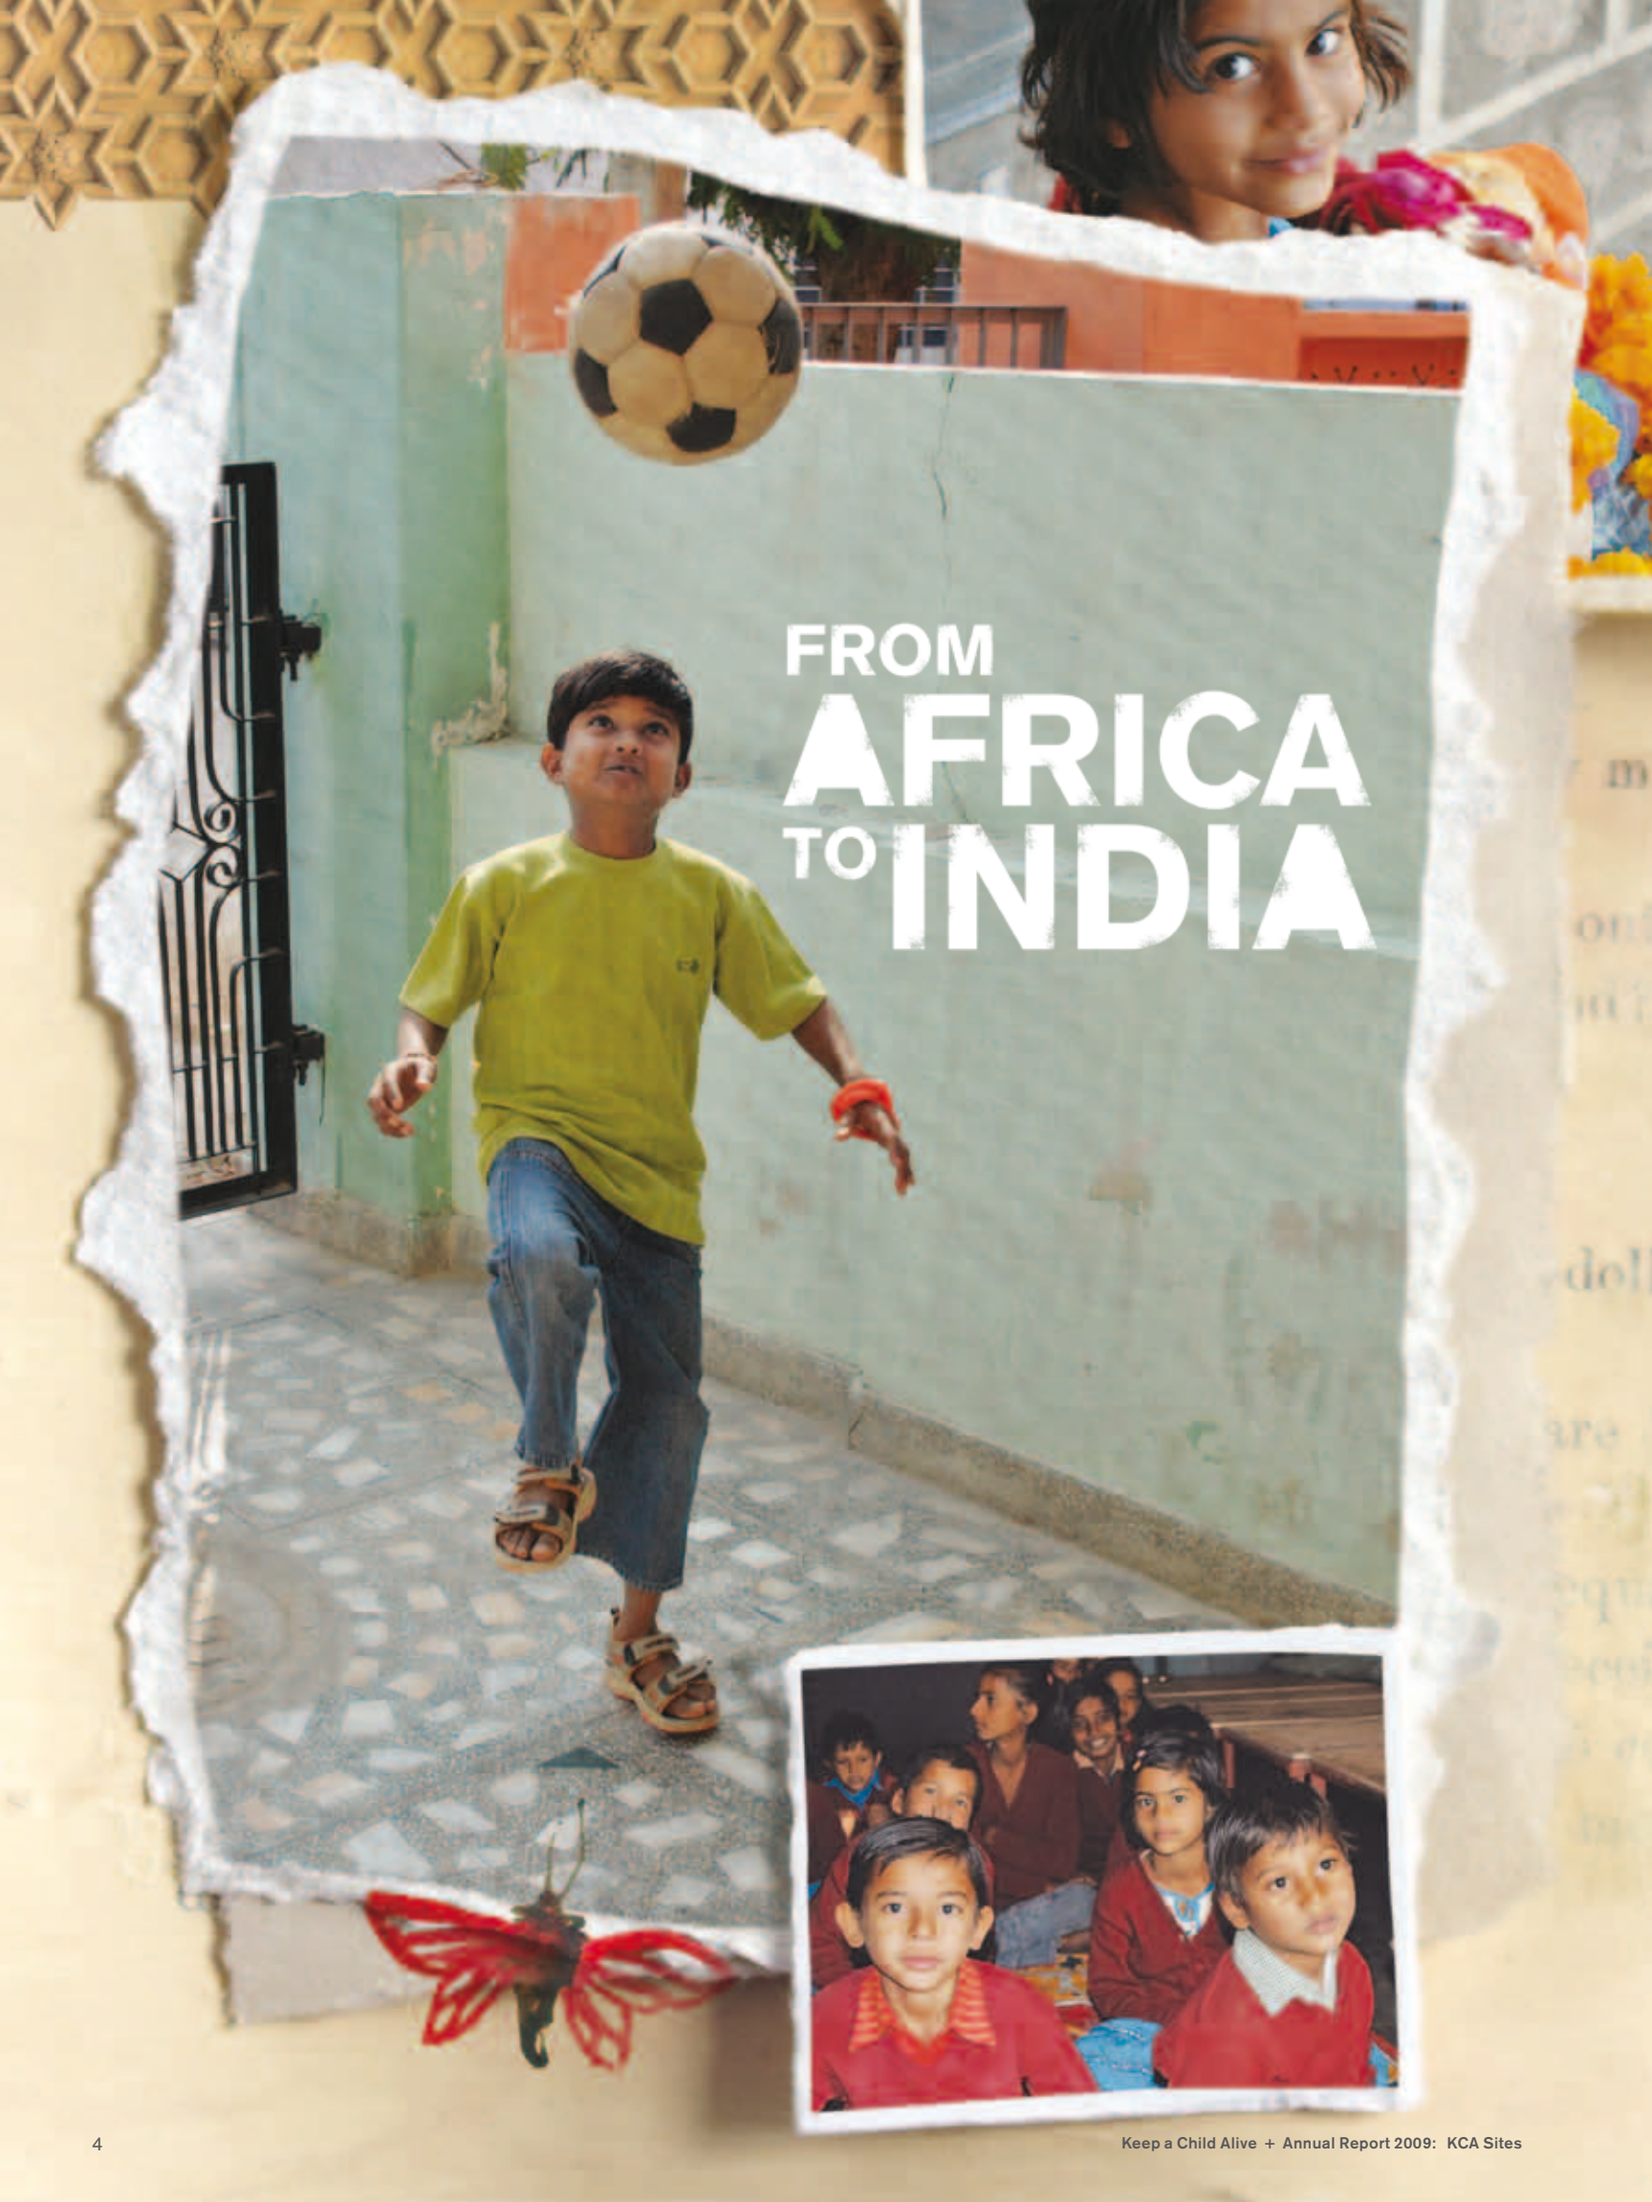
Currently 15 million children worldwide have lost one or both parents to AIDS. 14.1 million of these children are in Sub-Saharan Africa. These children will face enormous risks in their struggle to stay alive. They will often be forced into sexual exploitation or enrolled as child soldiers, this after the terrible trauma of losing their parents.

Keep a Child Alive supports the children's extended family caregivers, and builds and sustains orphan care centers to keep the most vulnerable children out of harm's way.

8 YEARS AGO, KEEP A CHILD ALIVE WAS FOUNDED WITH THE BELIEF THAT WE CAN AND MUST JOIN IN THE FIGHT AGAINST AIDS.

WE ARE HAPPY TO SHARE WITH YOU THE PROGRESS WE'VE MADE IN THE PAST YEAR.

WE'VE ONLY JUST BEGUN.



FROM
AFRICA
TO INDIA

Keep a Child Alive is thrilled to share the success of its recent expansion into India. KCA announced its commitment to care for the vulnerable women and children in India infected and affected by HIV/AIDS at the 5th Annual Clinton Global Initiative Meeting in September.

Over the next five years, Keep a Child Alive commits to establishing a series of safe-houses to protect HIV+ women and children, and children orphaned by AIDS. These safe-house structures will foster an environment where vulnerable women and children can feel safe and supported with the medical treatment and care that they need, educational opportunities they would otherwise not have access to, and programs that will help them build skills they can use to sustain their daily lives.

Keep a Child Alive will focus on the states of Andhra Pradesh, Delhi, Maharashtra State, Rajasthan and Tamil Nadu where we will provide to those in the most desperate need of medical, nutritional and psycho-social support to fight the effects of HIV/AIDS.

SAHARA AALHAD CARE HOME

PUNE, INDIA

Since 1978, the Sahara Centre for Residential Care and Rehabilitation has worked with marginalized populations throughout India. They continue to empower people, strengthen the community, and educate society.

The Sahara Aalhad Care Home cares for HIV-infected people who have little to no access to treatment and social support. Most Sahara clients face poverty and HIV/AIDS-related stigma and discrimination, and have nowhere else to turn. Many come to Sahara at a moment of desperation, facing the latest stages of AIDS, without any prior attempt to disclose their status to their family or community. At Sahara Aalhad, they empower their HIV+ clients to live "positively," manage their condition, and return home with a newfound hope for the future.

Keep a Child Alive is working with Sahara to better equip and enhance its comprehensive care model for vulnerable men, women and children in Pune.

CLINTON GLOBAL INITIATIVE 2009

President Bill Clinton hosted the Fifth Annual Meeting of the Clinton Global Initiative (CGI), an event that brought together global leaders from business, government, academia, science, religion, and non-governmental organizations, including numerous heads of state, former heads of state, CEO's of multinational corporations, and prominent philanthropists. CGI is a forum for participants to develop and implement workable solutions to some of the world's most pressing issues. At this year's Clinton Global Initiative, Keep a Child Alive presented our commitment to expand our work further into India.

30

CHILDREN ARE RECEIVING CARE AT THE CENTER

RNP+ AANCHAL CARE HOME

JALORE, RAJASTHAN, INDIA

RNP+ works to improve the quality of life of people living with HIV/AIDS in Rajasthan. The organization concentrates on integrating people living with HIV, as well as their children and family members, into mainstream society by providing them with counseling, AIDS treatment and surrounding medical care, education, capacity building, and employment.

RNP+'s work brought to the forefront the urgent need for quality orphan care for children affected by HIV/AIDS in Rajasthan.

Keep a Child Alive joins RNP+ now in the scaling up of their new "Aanchal" Care Home in rural Jalore. Aanchal aims to provide comprehensive, holistic care for abandoned children living with HIV. Many of these children have lost their parents to AIDS, and their remaining family members are too poor or unwilling to care for them. In addition to providing a home for these children, RNP+ will work to strengthen the capacities of their remaining family members, so that one day the children can return and live with their own families.

SAVING LIVES IN
SOUTH
AFRICA

OPERATION BOBBI BEAR

AMANZIMTOTI, DURBAN

In the province of Kwa-Zulu Natal, one in every four girls faces the prospect of being raped by her sixteenth birthday. Operation Bobbi Bear works on behalf of South Africa's child victims of sexual abuse. They help to minimize their risk of HIV-infection at point of rescue and ensure their health and well-being in places of safety and bringing their perpetrators to justice.

Bobbi Bear has made tremendous inroads in their community, visiting schools and holding outreach programs to educate children, caregivers and officials about the reality of child rape and HIV transmission.

Bobbi Bear has helped influence the dialogue about the rights of children in the courts like no other organization. Their court-approved approach, the use of a teddy bear for victims to relate the stories of their abuse, has helped save thousands of children from being victimized again by retelling their stories in court in the presence of their perpetrator.

KCA funds entirely the costs for Bobbi Bear to operate. KCA's support has served 4,000 children a month through rescue, outreach and awareness.

BLUE ROOF WELLNESS CENTRE

WENTWORTH, DURBAN

The Blue Roof Wellness Centre, once just a dream for a community plagued by alcohol, drugs, crime and staggering rates of HIV, has become a powerful symbol of hope and all that is possible for the people of Wentworth and its surrounding community. Through the support of Alicia Keys and the Stephen Lewis Foundation, Keep a Child Alive transformed the Blue Roof into a state-of-the-art continuum of care center for the treatment of HIV/AIDS.

At the heart of this beautiful centre is a flourishing garden where patients and staff alike come together to plant and harvest vegetables that are used to create healthy meals at the Blue Roof. Working in the garden helps patients feel that they are contributing to their own self-sufficiency, giving them a purpose and a sense of being more than just a patient.

The Blue Roof continues to scale up its programs and services, providing free anti-retroviral treatment, nutritional support, home based care, psychosocial support and alcohol/drug abuse counseling to nearly 1,000 patients.

IKAGENG ITIRELENG AIDS MINISTRY

SOWETO, SOUTH AFRICA

Imagine being a mother to nearly 1,000 children. Carol Dyanti is exactly that. She has created a new model for family for orphans living in child-headed households in Soweto, South Africa. These children have experienced first-hand the true devastation of losing their parents and guardians to AIDS.

"Ikageng Itireleng" means "help them help themselves," and the program is unprecedented in the way it helps these children overcome the tragedy they've experienced while protecting the remaining family unit. At Ikageng, siblings continue to live together in their homes. AIDS has forced these children to grow up too quickly, and the Ikageng team continues to work hard to help them grow to adulthood, which is frequently not possible for children as vulnerable as these living in often dire circumstances.

Ikageng provides for all the basic needs of the children, relieving the pressure on older children who, having lost their parents to AIDS, are forced to take on adult roles. Through its ongoing support of the project, Keep a Child Alive is committed to helping ensure these children continue to thrive.

"HELP THEM HELP THEMSELVES"

CHILDREN SERVED: 1,094

CONTINUING WHAT WE STARTED

UGANDA

ALIVE MEDICAL SERVICES

KAMPALA, UGANDA

Keep a Child Alive (KCA) has supported Alive Medical Services (AMS) since 2004, when it began as a small project to provide free HIV/AIDS treatment and care within the framework of a medical center. Our work helped scale up the project to become a multi-faceted independent medical clinic.

Today, KCA fully funds the work of Alive Medical Services, in a continual effort to capacitate its programs and services to manage its increasing patient numbers.

Alive Medical Services is known as a place that transforms the lives of patients with HIV/AIDS every day. It provides free comprehensive HIV/AIDS treatment, nutritional support, prevention of mother-to-child transmission services, family planning and urgently-needed volunteer counseling and testing (VCT) to a community that would otherwise have no access to care. AMS currently provides services to 5,574 patients, and our Medical Director, Dr. Pasquine Ogunsanya, receives an average of 100 new patients at the clinic every month.

RWANDA

CENTREVILLE CLINIC

(FORMERLY ICYUZUZO)
KIGALI, RWANDA

In partnership with We-Actx (Women's Equity in Access to Care and Treatment), Keep a Child Alive funded the scale-up of the Centreville Clinic. The clinic fulfills the needs children and families requiring medical care, most of whom are genocide survivors located at the center of Kigali. Keep a Child Alive works with the clinic to provide comprehensive HIV/AIDS clinical services, urgently needed psychosocial support, nutrition and microfinance opportunities to more than 1,000 patients.

As a nation that continues to advance on all levels, the scars of the genocide are still present in Rwanda, including the devastation of widespread HIV/AIDS. KCA is committed to working with the Centreville Clinic and is committed to helping renew these patients lives by returning them to health and by providing small funds to begin their own enterprises, be it goat farming or textiles. With their health restored, the patients at Centreville are empowered to begin taking care of themselves and their families again, and the clinic is fostering their ability to do so.

KENYA

FAMILY CARE CLINIC

MOMBASA, KENYA

As the place where the vision for Keep a Child Alive was born, the Family Care Clinic in Mombasa holds a special place in our hearts. In 2001, Leigh Blake and Dr. Shaffiq Essajee of NYU Medical Center, created a pilot program in the city's largest government hospital that is now responsible for providing state-of-the-art medical and support services to children and families living with HIV.

As Keep a Child Alive continues to evolve its efforts into other areas where support is urgently needed, our work with the Family Care Clinic will remain an important and enduring part of our on-going story. The Family Care Clinic is doing today exactly what Leigh intended to do in Africa from the very beginning: keep children alive. The vision for Keep a Child Alive is realized every day at the Family Care Clinic, where 611 patients currently receive pediatric AIDS treatment and 1,270 patients are receiving surrounding care as a result of our work.

OVER 60 MILLION SOULS HAVE BEEN INFECTED WITH THE HIV VIRUS SINCE IT WAS IDENTIFIED IN THE EARLY EIGHTIES.

WORDS FROM THE FRONT

AIDS - AN EVERYDAY DISASTER

OVER 60 million souls have been infected with the HIV virus since it was identified in the early eighties. That's the population of California and New York combined.

28 million have already died of AIDS. That's the entire population of Canada. Gone.

33 million are infected with HIV today, most will live meal to meal, very impoverished and forced to die in front of their children. That is over half of the population of the UK.

17.1 million orphans are living in the world, suffering post-traumatic stress disorder from the experience. That is the entire number of all the children in England or Germany.

This is unacceptable in a civilized world.

"WHATEVER JOY THERE IS IN THIS WORLD ALL COMES FROM DESIRING OTHERS TO BE HAPPY, AND WHATEVER SUFFERING THERE IS IN THIS WORLD, ALL COMES FROM DESIRING MYSELF TO BE HAPPY."

- 2ND CENTURY BC SHANTIDEVA

AIDS is hell. Painful, cruel, non-discriminating and yet it is connected to the most natural thing of all – lovemaking, sex, something so natural and necessary to continue to create our world.

We can fix this. We can take the pain away but it's all about MONEY. Instead of using MONEY to buy things we don't really need, cluttering up our homes and brains, let's buy LIFE for those who are hanging on by a thread.

Today we are here ready to help and ready to be counted. Let's provide housing, drugs, love, hope, and our commitment to children and families just like ours, who want what we want but most of all they need our compassion and concrete action.

We are forever blessed when we give. In every religion, charity is most important. Giving is a feeling that is better than anything. And a constant commitment to something you believe in changes the importance of everything around you... and you are freed in the process.

Your light can shine.

ALICIA KEYS AND LEIGH BLAKE
CO-FOUNDERS, KEEP A CHILD ALIVE

WE PRIDE OURSELVES ON BEING AN ORGANIZATION THAT IS NOT AFRAID TO PUSH THE LIMITS.

A PIONEER IN MOST OF OUR ENDEAVORS, KEEP A CHILD ALIVE IS AND WILL ALWAYS BE AN ORGANIZATION THAT CANNOT BE IGNORED.

WE ARE...

FEARLESS

WE MOVE BOLDLY AND PURPOSEFULLY WITH URGENCY IN OUR WORK EVERY DAY.

We are people of action, doing what we can to make life better for others, because it is within all of our abilities to do so.

COMMITTED

WE BELIEVE THAT, WITH AIDS TREATMENT, ANYTHING IS POSSIBLE.

We watch people become reborn with treatment. Their children watch in wonder as their parents come back to life. It is thrilling to see, but no matter how many players are working to make treatment possible, it is still only a fraction of what is needed.

We recognize how multi-faceted the AIDS pandemic really is, and address it with our model of comprehensive HIV care for people infected and affected by AIDS.

TRUSTING

WE FUND COMMUNITY BASED ORGANIZATIONS WHOSE AMAZING WORK ON THE GROUND IS OFTEN OVERLOOKED.

We trust that the local people in the countries we serve are extremely capable of responding to this pandemic, but are often impeded by lack of access to medicines, health care professionals, and funding. Our work helps them scale up their services and we find when given the chance, people always rise to the challenge.

All of our grantees are community based organizations run by women who have been enlightened to the HIV/AIDS issue via personal experience and who cannot and will not turn away.

COMPASSIONATE

THE KEY DIFFERENCE AT KEEP A CHILD ALIVE IS LOVE.

The whole team feels genuine love, compassion and deep respect for each other, which we bring to our patients and to our purpose. We are a family at KCA and we care about keeping families alive and together.

IN-TOUCH

WE ARE IN TOUCH WITH THE PEOPLE WE SERVE.

We remain in personal contact and constant communication with our sites on the ground. We respect them as fellow activists and valued partners in the fight against AIDS. They are more than just grantees to us – they are our extended family.

INNOVATIVE

WE HAVE BEEN AHEAD OF THE CURVE FROM THE BEGINNING.

We have thrived on being different. We were the first NGO to offer a feature length documentary *Alicia in Africa: Journey to the Motherland* for free on the Internet to generate awareness. We were the first charity to successfully use texting as a fundraising tool and are pioneers in this easy and instant way of donating, right from your cell phone. To date we have raised $800,000. And our Black Ball, our annual fundraisier, is an amazing night filled with love and inspiration.

BUREAUCRACY-FREE

KEEP A CHILD ALIVE REMAINS SMALL AND BUREAUCRACY-FREE.

This means our speed of response is never hampered. There is no hierarchy here, only a shared passion for moving our agenda forward to save as many lives as possible.

SPREADING

WE AWAKEN OUR AUDIENCE USING MEDIA ON MANY DIFFERENT LEVELS.

We communicate our message in schools, colleges, communities, homes, concerts, documentaries, reality shows, music, blogs, Twitter, and Facebook. Like pop culture, we are constantly changing. We create hip, direct, often outrageous ways to communicate about our issue – the most important issue of our time.

IT IS ONLY THROUGH THE UNWAVERING SUPPORT OF OUR DONORS AND THE FORTITUDE OF ALICIA KEYS THAT WE CAN CONTINUE FUNDING THE LIFE-SAVING WORK OF COMMUNITY-BASED ORGANIZATIONS IN AFRICA AND INDIA.

THANK YOU.

170,000

* **An estimated ~~169,000~~ children under age 15 are living with HIV in India.**

YOUR DONATIONS AT WORK

MY NAME IS BASHIR AND THIS IS MY STORY.

SEPTEMBER 2ND, 2008

I don't really know how I got this sick. I know I should have gotten medicine sooner. I can't eat or walk, or even sit down now. It took me two hours to come all the way to Kampala to see the doctors at Alive Medical Services. As the nurses carry me to ward, I feel certain I will not make it through the night. And what will Farida, my dear wife, do when I am gone? What will become of my children? With a new baby on the way, I worry that I will never get to meet her.

OCTOBER 15TH, 2008

I have AIDS, but the medicine I've been given is already working. I am gaining weight and feeling stronger every day. Dr. Pasquine told me that Farida should be tested for HIV too, as well as our new baby. Farida has since started treatment, and is doing well, and I hope she never gets as sick as I was. I see the face of my beautiful new baby girl, and I am so thankful that she does not have HIV. I'm in the battle for my life, but everyone around me tells me I can win. My will to live is strong.

JANUARY 7TH, 2009

After weeks of seeing my health improve, I've had a terrible setback. First, tuberculosis, then cancer…both common in people who have extreme AIDS like I do. My liver and kidneys are failing, and I've lost some of the weight that I fought to gain. But I've seen the miraculous change that treatment makes possible, and I know that with the love and support from Alive Medical Services, I can get there again.

JULY 28TH, 2009

Today I purchased spare parts for my small boda-boda shop. A year ago, I didn't think I would be alive, and today I am a business man again! My health is restored, my wife continues to thrive, and all of our children are back in school. I owe everything I have today to Alive Medical Services and Big Mama Leigh - who gave me the hope and ability, not just to live, but to have a life.

MY NAME IS BASHIR AND I AM ALIVE!

KCA COMMUNITY

In May 2009, Keep a Child Alive launched 'KCA Community,' an online social network for our AIDS activists working on the ground in their communities.

Evolving from the KCA College Program which began in 2006 with four college Chapters in New York City, KCA Community has now expanded to Chapters worldwide with over 2600 registered members! These Chapters are created and managed by students, community members, sports teams, churches etc to raise funds and awareness for Keep a Child Alive. Members can observe others events, share new ideas and participate in on-going KCA led campaigns through KCA Community.

Through community.keepachildalive.org, the hub of our network, members find a sense of community in which positive action is rewarded, encouraged and supported. With our expanding network, we offer our members the opportunity to take immediate action.

Through their tireless efforts to raise awareness and funds, our KCA Community members help KCA continue to ensure that lifesaving services run consistently every year to support our sites in Africa and India. $80,000 was raised in 2009 for Keep a Child Alive through KCA Community.

BLACK BALL NY 2009

The Black Ball is New York City's most highly anticipated fund-raising event of the fall season. Hosted by KCA Co-Founder Alicia Keys, the Black Ball is an event where celebrity and philanthropy walk hand in hand, fulfilling hopes, dreams and raising funds for children and families with HIV/AIDS in Africa and India. Attended and sponsored by the leaders in advertising, entertainment, finance, fashion and publishing, it features once-in-a- lifetime performances that generate worldwide press.

Performances by: Alicia Keys, Chris Martin, John Mayer and Youssou N'Dour.

Honouring: President Bill Clinton, Founder, William J. Clinton Foundation; Sir Richard Branson, Founder & President, Virgin Group/ Founder, Virgin Unite; Youssou N'Sour.
